SmithFit App Walkthrough

Quick Overview

This app is built for real life — night shift, kids, stress, and unpredictable schedules. Everything inside is designed to get you out of fight-or-flight, keep you consistent without burnout, and make your results predictable (no guessing).

What to Expect with SmithFit🎉

1) SmithFit's Metabolic Reset (The Foundation)

We use this with every client because if your body is stuck in survival mode, you can eat less and work harder and still not lose. This reset helps your body feel safe enough to respond again — so fat loss, energy, digestion, and sleep actually start moving.

What it helps with

- Lose 5–15 lbs in the first 4 weeks
- Less bloating
- More natural energy
- Better sleep + mood
- Better blood sugar + hormone regulation

What's included

- **Wired-Up Morning Cocktail** (before caffeine/food): water + pink salt + ACV + lemon
- **Box Breathing** (4-4-4-4) to lower cortisol and calm the nervous system
- **8,000–10,000 steps/day** for sustainable fat loss without high-impact burnout
- **6–8 hours sleep tracking** (we track reality, not perfection)

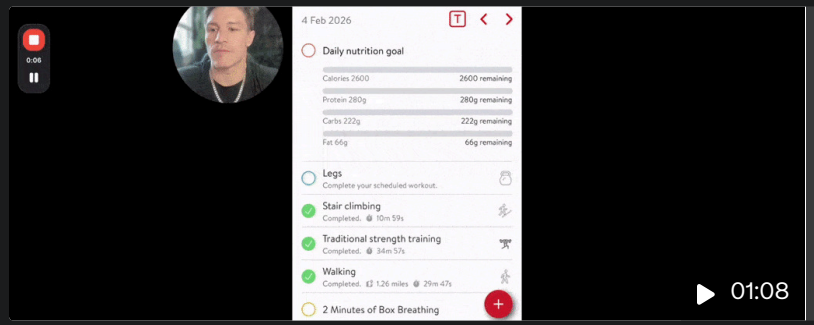
Metabolic Reset Breakdown

2) Dashboard (Your Daily Home Base)

This is where you go every day — everything you need is right there. You'll see

- Your daily nutrition goal + where you're at
- Habits + Metabolic Reset checklist
- Your workout (if scheduled that day)
- Virtual classes (group calls, education, Q&A, support)
- Your groups/community (based on your tier)
- Progress snapshot: steps, weigh-in, photos, calories, streaks, achievements



Loom

Dashboard Layout

3) Calendar View (Flexibility Built In)

You can see up to 2 weeks ahead, and adjust your plan based on what life throws at you. You can

Go back and complete missed workouts

(log reps/weight/time → save → complete)

Go back and check off habits so you don't lose streaks

(especially during challenges)

Move workouts to a different day when your schedule changes

This is how we make compromises instead of sacrifices — so you don't fall off.

4) Workouts (Kettlebell Icon)

Your workouts are customized to your reality — so you get **results fast** without needing a perfect week.

-Inside the workout section:

- Your personalized plan (based on availability + goals)
- Extra programs depending on your tier
- Log reps/weight/time while you train
- Toggle previous data so you can see last week vs this week (progress is obvious)
- Video demos + verbal coaching cues for every exercise
- Built-in rest timer
- Rate difficulty + add notes so we can adjust
- Swap exercises anytime (3 dots → substitute → choose replacement)
- Everything is phased and changes when it's supposed to — based on your data.

5) Goals Tab (Goals + Habits)

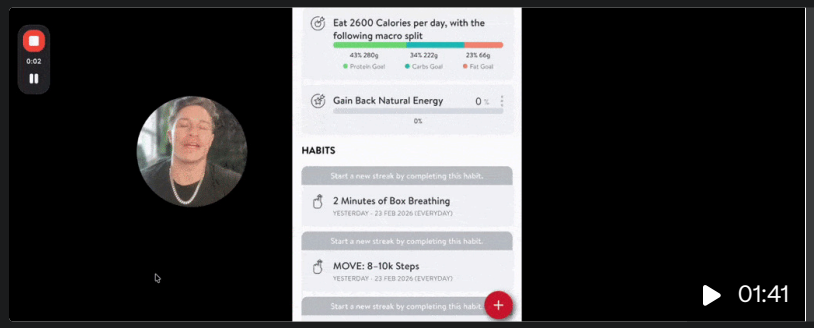
This is where your goals live, and the daily habits that get you there. You'll track Your main goal (fat loss, confidence, etc.)

Nutrition goal

Metabolic Reset + custom habits

(meal prep, vitamins, decompression, etc.)

> **We use check-offs because streaks work. Your brain doesn't want to break the chain — and consistency becomes automatic.**



Loom

Habits & Goals

6) Settings Tab (Progress + Device Connections)

This is where you see your proof. You'll see Badges, streaks, achievements

Total workouts + cardio activities

Favorite meals/recipes you repeat often

Connect Apple Health / wearables

Steps, sleep, vitals, biofeedback

Better tracking = better adjustments = more predictable results

7) Nutrition + Meal Plans (No Diets — Real Life Eating)

We don't do "diets" because diets end. We build lifelong balance. You shouldn't have to choose between results and foods you love.

1

Meal logging is simple

Plus (+) → Meal → snap a photo → enter foods + portions → review → log

2

Dashboard updates instantly

so you always know where you're at

🔥 BONUS UNLOCKED🔥

Recipe database ("Discover")

- Hundreds of recipes (sweet, savory, cultural foods)
- Filters based on preferences
- Every recipe shows prep time + calories + macros
- Tap log and it auto fills your day

VIP bonus If you're in VIP tiers, we build your meal plans for you — including family dinners and cultural meals — so you don't have to guess. No finish line. Results don't have to stop.
